USF INTERNSHIP PROGRAM

Are you ready to check your cognitive limits!

Being Internee at Universal Service Fund Pakistan, you get more than just "real world work experience." You become part of the Telecom Sector of Pakistan. Through our Internship program, you get to have lifelong learning experience even before the starting of your professional journey. During the course of internship we will prepare you deliver even better to ace your academic pursuits.

What we are looking for?

We want diverse, culturally aware, well-adaptable, well-rounded and problem-solving undergraduate and postgraduate students from ICT and Business study backgrounds of PEC recognized universities / institutions who wish to make their initial marks and excel their careers in telecom sector of Pakistan.

What we provide

We offer a broader spectrum of Telecom Sector knowledge and its prospective horizons across the country to our students through on job learning and development of our students. Our internship not only enables students to learn initials of the industry but also enrich their study experience with better knowledge which leads them to follow their future endeavors.

What to expect

A "challenge" based on real time working on various ICT / Business projects in relation to real working of telecom sector of Pakistan. Our internee will be working under teams who are actively involved in developmental projects. All required tools such as hardware and software along with conducive working environment will be provided by the USF.

Stipend

All interns will receive a stipend as per the company policy.

Eligibility

Depending on the needs of the particular internship, the intern must have completed a minimum of:
